

FROZEN FOOD EXPRESS

Wednesday, March 3, 2021

FFE is conducting standard daily operations across the U.S., recently affected by the winter storms. Previous hazardous conditions across the U.S. have receded, and FFE is now back to standard daily operations.

Note that there may be on-going service delays until recovery efforts conclude across the country.

As always, FFE appreciates your business and your patience during weather-related disruptions. You can stay up to date by subscribing to FFE Auto Email Alert notifications online at www.ffeinc.com or contact your local service center.

Follow us on Social Media to stay connected.
